

Instruction of being an in-circle artist

For Novice (laptop only) - scroll down to page 3 if you have Metamask wallet

Step 1: Download Metamask and create your wallet

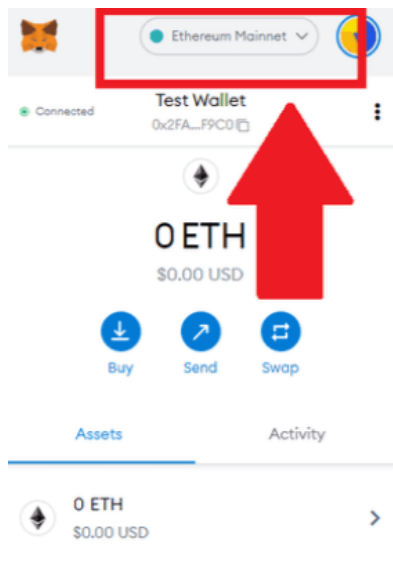

- If you haven't had a Metamask wallet, use chrome browser to download it from <https://metamask.io/>.

*Metamask is a popular crypto wallet in web3 & gateway to blockchain apps.

- Create your new wallet base on the instruction of Metamask website.

*Remember your Secret Recovery Phrase. It is the only way to get your wallet back if you forget the password or want to import same wallet in other devices.

Step 2: Change your network (in Metamask) into Polygon Mainnet

Step3: Charge MATIC coin into your wallet

Step4: Connect your wallet to Dapp

Once you got MATIC **into** wallet, you can interact with it now !

1. Open the Dapp:

<https://yvonne213.github.io/Projects/InCircleArtist/>

2. On the top of the page, you need to connect your wallet to the page.

3. Click "connect"

You will see your connection status on the top. Green icon means you are all set.

If you still see the red icon, go back and check step 1 or 2.

Step 5: Start enter the circle

Enter your name and address into the circle.

*Your wallet address will be showed on the top of the page. You can just copy the series of characters into the circle.

Click "Click and enter artist's circle"

Step 6: Pay for entering your name into the circle

*It is not received by creator but the decentralized system.

You will see a transaction in Metamask, then click "Confirm".

Step 7: Then you will see your name showing in the list of in-circle Artist

In the setting of the Dapp, you also mint an NFT automatically, click "check your NFT". Entering to NFT portal to check.

*If you haven't see your NFT, just wait a minutes and refresh the page.

For those who have Metamask wallet (laptop only)

Step 1: Change your network (in Metamask) into Polygon Mainnet
